FAISHAL HANIF

Indonesia | hanifrev@gmail.com | hanifrev.com | +6282335318705

SUMMARY

Full-stack developer with 5 years of experience, specializing in frontend engineering. Experienced in building production web applications using React, Next.js, and Tailwind CSS, with backend experience in Node.js, Express, and MongoDB. Strong product mindset with hands-on experience taking ideas from planning to implementation.

WORK EXPERIENCE

Rave Tech Private Limited | **Singapore (Remote)**
Frontend Developer | *Dec 2024 - present*

- Developed modern front-office travel platforms, including websites and e-commerce systems, for travel agencies across Southeast Asia using Next.js and Sanity CMS.
- Designed content schemas and application logic from the ground up to align business workflows with a clear, conversion-focused user experience.
- Built reusable shared components and evaluated CMS architecture improvements, including a potential migration to Payload CMS for greater flexibility and editorial efficiency.

InPresence | **Indonesia (Remote)**
Full Stack Developer / Founder | *June 2024 - Dec 2024*

- Developed and maintained micro SaaS applications, handling everything from ideation, and planning, to fullstack implementation.
- Developed websites and web application for some MSME
- Led research, development, and managed projects throughout the software lifecycle.

Usertip Private Limited | **Singapore (Remote)**
Frontend Developer / Full Stack Developer | *August 2023 - August 2024*

- Built a component library and design system to streamline development, ensure consistency, and speed up Frontend work.
- Developed and maintained a web app and two Chrome extensions across staging and production.
- Added features like a text editor, color picker, and font selector to the Chrome extensions.
- Improved code quality by transitioning from prop drilling to Redux Toolkit.
- Expanded into Fullstack development, creating APIs and designing email templates for user flows.

PT. Teknologi Digital Terdepan | **Bandung, Indonesia (Remote)**
Frontend Developer | *July 2023 - January 2024*

- Developing responsive websites and web apps using Next.js / React.js and Tailwind CSS
- Implemented API from the backend into the frontend using React Query

Roketin (PT. Roketin Kreatif Teknologi) | **Bandung, Indonesia (Remote)**
Frontend Developer | *January 2022 - March 2023*

- Developing responsive websites and web apps using Next.js / React.js and Tailwind CSS
- Implemented API from the backend into frontend

Aha Learn-to-Earn, LLC | **US (Remote)**
Junior Frontend Developer | *January 2021 - October 2021*

- Sped up development time by 200% by switching to Tailwind instead of Material UI
- Created reusable component

EDUCATION

Universitas Airlangga
Bachelor's Degree, Sociology

Dicoding Academy
Frontend Web Development Class
